

THE PARKING

We are pleased to introduce you to the new Dal Negro Urban Parking. Today not only the largest, but also the most economical parking close to the city centre, ideal for those who work, live or study in downtown Treviso and need a safe and easy-to-reach car space.

GREEN PHILOSOPHY

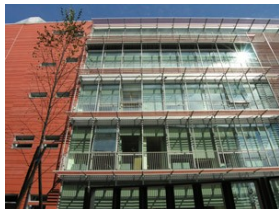

The new Dal Negro Urban Parking is managed in accordance with the latest Green Philosophy that has eco-sustainability as its main purpose. In particular it aims at reducing harmful emissions into the atmosphere whilst increasing the quality of service in order to maximize the comfort of the people that use the premises.

HISTORY

The multi-storey car park, the largest near the centre of Treviso, is named after the historical playing card factory whose HQ, up until 2000, was situated right in the building on the corner between Via Fratelli Bandiera and Venier street, near Ponte Garibaldi.

A MULTI-FUNCTION CENTRE

Dal Negro Urban Parking is today a multipurpose centre serving all citizens, where special events such as product presentations, flea markets, etc. can be organized. This is thanks to the two spacious outdoor areas overlooking the Roman Castle on the River Sile and the panoramic terraces on the seventh floor, which boast a magnificent view over the City and the hills of Montello.
